

# September Newsletter

## Yearlings and Infants

This month we will be focusing on and learning about things that go! Cars, trains, bikes, boats, and service vehicles. We will be focusing on a lot of Language development this month, practicing saying new words. We will also be compiling a word wall of all the new words the children in our classroom can say. As your children say new words at home, please let us know so we can post daily!

We also will be practicing more walking, utilizing our walkers. We will also focus on muscle development so that the children pull themselves up from sitting or laying down, climb the stairs to the changing table, practice sitting in chairs, and use spoons and forks to feed themselves

We would love to help check off developmental milestones on our checklists for all children. We will be completing the checklists in their portfolios to help them grow.

For children eating solid foods, we would like to help the children try new foods and eat various foods. If your children eat fruits and vegetables at home, please bring them to school. If you need assistance packing various foods, MyPlate.com is an excellent website to help children get their nutrients. We would just like to see healthier options in the children's lunch boxes, as we are still seeing a lot of dough and pasta.

Thank you!
